

Junction Closing – Impact on Pedestrians

People living between Livernois & Junction:
Walk an additional 0.18 miles
(320 yards)
All others – no difference

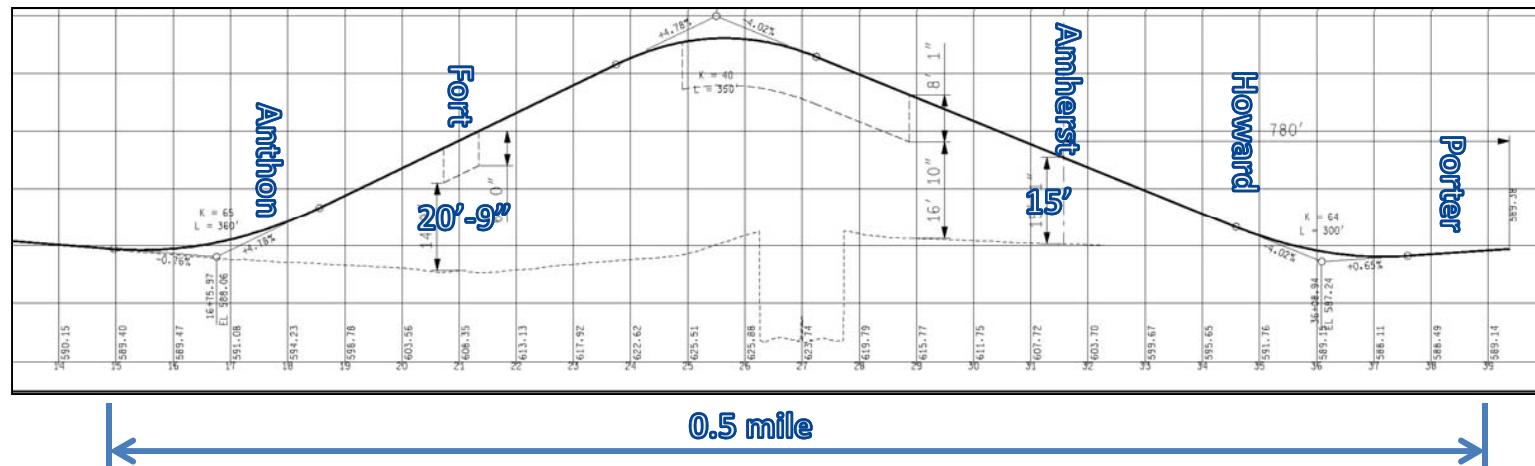

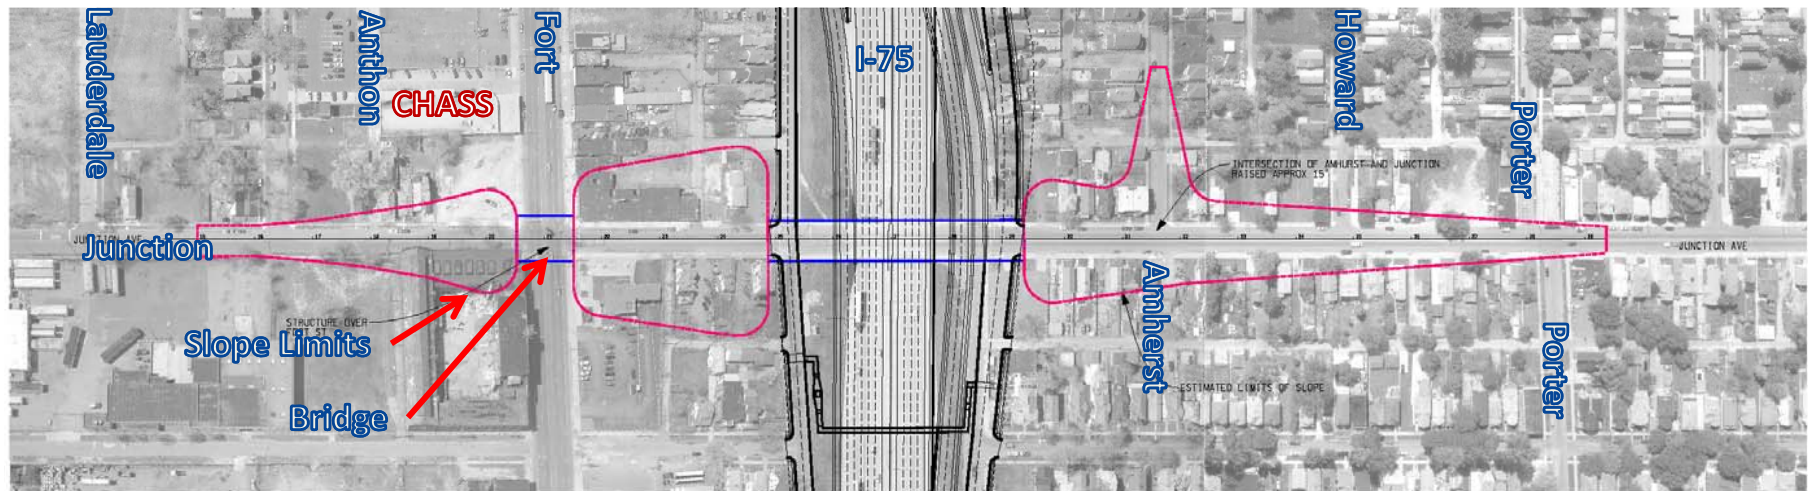

Option 1 – Raise Fort Street

- Raises Fort 9 ft, Amherst 15 ft.
- Approximately 60 additional properties, 39 along Junction north to Porter.
- Substantial community impacts.
- Estimated construction cost \$4 million

- Engineering Issues:
 - Can't raise Fort St. – utility issues
 - High fill is likely not feasible.
 - Likely more bridge than fill, increased cost.
 - Retaining wall could reduce footprint, increased cost.

Option 2 – Bridge Fort Street

- Bridge over Fort 20'-9", raise Amherst 15 ft.
- Approximately 54 additional properties, 39 along Junction north to Porter.
- Substantial community impacts.
- Estimated construction cost \$4.5 million
- Engineering Issues:
 - High fill is likely not feasible.
 - Likely more bridge than fill, increased cost.
 - Retaining wall could reduce footprint, increased cost.
