

Property Acquisition – What you should know

With the announcement of the technically and environmentally preferred end-to-end solution in Canada, the Ontario Ministry of Transportation (MTO) and Transport Canada (TC) have determined the property required to construct the access road, plaza and crossing.

Compensation is based on the appraised market value of your property. Market value is based on what a similar property might be expected to sell for on the open market by a willing seller to a willing buyer. This value is determined by a professional property appraiser who inspects each property individually and considers various factors that influence market value, including sales of similar properties, which are adjusted to reflect the specific characteristics of your property. After the appraisal is completed, a real estate officer will contact you to set up a meeting to present an offer of compensation in an effort to reach a mutually acceptable agreement. An allowance for moving costs and other eligible expenses will be paid.

In situations involving a business, an independent business valuation may be necessary to determine the market value of the business should it not be feasible to relocate the business. In cases where it is feasible to relocate the business, there may be special entitlements associated with relocation. Every situation is unique and staff will meet individually with business owners to fully discuss compensation and entitlements.

For property owners in the area of The Windsor-Essex Parkway

The Ontario Ministry of Transportation is continuing to consider requests by owners wanting to sell their property that has been identified as required. Owners wishing to sell their property may contact the Ministry of Transportation, Windsor Border Initiatives Implementation Group at 519-973-7367 or 1-800-265-6072 ext. 4800 or email Detroit.River@ontario.ca.

After the Environmental Assessment (EA) study has been approved, MTO may initiate expropriation proceedings, if required.

However, even after EA approval, MTO will continue to negotiate with property owners in an effort to obtain a mutually acceptable agreement. If an amicable agreement cannot be reached, MTO will proceed in accordance with the provisions of the Expropriations Act. MTO respects owners rights under the laws of Ontario and your rights will be fully explained to you by an MTO real estate officer.
