Dear Senator Jelinek and Representative Cushingberry:

Pursuant to Section 384(2) of Public Act 275 of 2008, enclosed is a report intended to fulfill the requirements of the following language:

*The department will report on a quarterly basis to both the house and senate appropriations committees on any expenditures relative to the process identified in subsection (1).*

*Sec. 384 (1) The state transportation department is allowed to finish the Detroit River international crossing (DRIC) study provided that activity associated with finishing the DRIC study shall not bind the state in any way to construction. Certain preliminary activities which are necessary to prepare a proposal for a decision by the legislature are allowed as long as they do not bind the state. Those activities include all of the following:*

- (a) Applications for permits and approvals.*
- (b) Preliminary design engineering work.*
- (c) Preliminary utility planning and relocation.*
- (d) Preliminary financial and funding arrangements.*

The report includes a listing of internal, consultant, and total study expenditures to-date through the end of the fourth quarter of Fiscal Year 2009, two charts detailing expenditures by year and source of funds, and monthly progress reports for the quarter detailing the history of the consultant team's efforts on behalf of the department.

The Michigan Department of Transportation takes great pride in the way we are conducting the DRIC project. We urge you to visit the project Web site, [www.partnershipborderstudy.com](http://www.partnershipborderstudy.com), where a wealth of additional information regarding study data and activities has been available since 2005.
