

Table of Contents

Errata Sheet	Back of Signature Page
Executive Summary	ES-1
S.1 Purpose of the Document	ES-3
S.2 Analysis Process.....	ES-4
S.3 Impacts	ES-27
Section 1 – Why is a New Border Crossing Needed?	1-1
1.1 The Project’s Purpose.....	1-3
1.1.1 Overview	1-5
1.1.2 The Economy	1-5
1.1.3 Civil and National Defense and Homeland Security	1-6
1.2 Specific Needs for a New Crossing.....	1-8
1.2.1 Provide Safe, Efficient and Secure Movement of People and Goods Across the U.S.-Canadian Border in the Detroit River Area to Support the Economies of Michigan, Ontario, Canada and the U.S.	1-8
1.3 Redundancy	1-13
Section 2 – Alternatives	2-1
2.1 Illustrative Alternatives	2-2
2.2 Additional Screening of Alternatives.....	2-17
2.2.1 Impact Assessment	2-17
2.2.2 Value Analysis (VA)/Value Planning (VP) Results.....	2-36
2.2.3 Plaza Analysis	2-36
2.2.4 Practical Alternatives	2-39
2.2.5 What Rules Guide Project Engineering?	2-40
2.3 Identification of the Preferred Alternative	2-56
Section 3 – The Environment: What’s There Now and What are the Impacts?	3-1
3.1 Social/Community Characteristics and Impacts	3-2
3.1.1 Historic Trends of Region and Study Area	3-2
3.1.2 Community/Neighborhood Characteristics	3-6
3.1.3 Community Services, Facilities and Major Employers ...	3-16
3.1.4 Who Will Have to Move and When?	3-21
3.1.5 Characteristics of Environmental Justice (EJ) and Title VI Population Groups.....	3-25
3.2 Jobs and the Economy.....	3-40
3.2.1 Expected Future Development	3-40
3.2.2 State and Regional Job Impacts.....	3-44
3.2.3 Construction Jobs Created	3-48
3.2.4 Bridge and Plaza Operations.....	3-48

Table of Contents (continued)

3.2.5	Tax Base Impacts.....	3-48
3.2.6	Summary of Job/Economic Impacts	3-49
3.3	Do the Practical Alternatives Follow Planning and Zoning Requirements?	3-50
3.3.1	Existing Land Use and Zoning.....	3-50
3.3.2	Summary of Land Use Impacts	3-52
3.3.3	Community Vision.....	3-56
3.4	Protected Farmland and Forests.....	3-57
3.5	Traffic.....	3-57
3.5.1	Travel Demand Model and Results	3-57
3.5.2	Microsimulation Model and Results	3-82
3.5.3	What Will Happen to Local Traffic?	3-95
3.5.4	How Will Traffic Work During Construction?.....	3-101
3.5.5	Summary of Vehicular Traffic Impacts.....	3-102
3.5.6	How Will Pedestrians, Bicyclists and Transit Users be Affected	3-103
3.6	Air Quality	3-110
3.6.1	Analysis Approach.....	3-111
3.6.2	NAAQS, Recent EPA Actions and Pollutant Trends....	3-113
3.6.3	Air Quality Analysis Findings	3-117
3.6.4	Conformity Requirements under the Clean Air Act.....	3-124
3.6.5	Summary of Air Quality Impacts	3-129
3.7	Will There be Noise Impacts? Where? Can They be Mitigated?	3-133
3.7.1	How was the Analysis Done?	3-133
3.7.2	Existing Noise Levels	3-136
3.7.3	Future Noise Levels at Crossings and Plazas	3-136
3.7.4	I-75 and Interchange Future Noise Levels.....	3-138
3.7.5	Noise Mitigation Considerations	3-140
3.7.6	Summary of Noise Impacts	3-141
3.8	Effects on Wildlife and Wetlands.....	3-146
3.8.1	Analysis Approach.....	3-146
3.8.2	Summary of Wetland and Related Impacts	3-149
3.9	Historic and Archaeological Resources.....	3-151
3.9.1	Archaeological Resources Impacts	3-153
3.9.2	Aboveground Resources Impacts	3-157
3.9.3	Traditional Cultural Properties	3-159
3.9.4	Summary of Cultural Resources Impacts	3-160
3.10	Parkland and Public Recreation Land.....	3-166
3.10.1	Existing Parks and Recreation Resources	3-166
3.10.2	Summary of Parkland Impacts	3-168

Table of Contents (continued)

3.11	Visual Conditions	3-169
3.11.1	Analysis Approach.....	3-170
3.11.2	Summary of Visual Impacts.....	3-177
3.12	Lighting	3-180
3.12.1	Lighting Considerations	3-180
3.12.2	Summary of Lighting Impacts	3-182
3.13	Contaminated Sites.....	3-184
3.13.1	Background	3-184
3.13.2	Summary of Impacts Related to Contaminated Sites ..	3-185
3.14	Indirect and Cumulative Impacts – U.S. and Transboundary	3-189
3.14.1	Methodology	3-190
3.14.2	Indirect Impacts – U.S. and Transboundary	3-195
3.14.3	Cumulative Effects – U.S. and Transboundary.....	3-216
3.14.4	Summary of Indirect and Cumulative Impacts – U.S. and Transboundary	3-229
3.15	Safety and Security	3-230
3.15.1	Summary of Safety and Security Impacts.....	3-231
3.16	Soils/Geological Resources Impacts.....	3-232
3.16.1	Soil/Geotechnical Conditions.....	3-233
3.16.2	Geological Resources	3-233
3.16.3	Summary of Soils/Geological Resources Impacts.....	3-238
3.17	Permits.....	3-242
3.18	Energy.....	3-244
3.19	Costs.....	3-245
3.20	Governance	3-247
3.21	The Relationship between Local Short-term Uses of the Environment and the Maintenance and Enhancement of Long-term Productivity	3-251
3.22	Irreversible and Irrecoverable Commitments of Resources	3-252

Section 4 – What Are Mitigation and the Proposed

	Measures to Reduce Harm?	4-1
4.1	Rules that Guide Right-of-way Acquisition and Relocation	4-1
4.2	Environmental Justice	4-3
4.3	What Will the Mitigation be Around the Plaza?	4-4
4.4	Noise Walls	4-4
4.5	Construction Noise and Vibration Impacts	4-4
4.6	Control of Air Pollution during Construction	4-5
4.7	Soil Erosion and Sedimentation Control.....	4-6
4.8	Surface Water Quality	4-7
4.9	Groundwater Quality	4-8
4.10	Wetland Mitigation.....	4-8
4.11	Migratory Birds.....	4-9

Table of Contents (continued)

4.12	What Happens to Existing Vegetation?	4-9	
4.13	Parks	4-9	
4.14	Cultural Resources.....	4-9	
4.15	Contamination	4-11	
4.16	Disposal of Surplus or Unsuitable Material	4-12	
4.17	Maintaining Traffic during Construction.....	4-13	
4.18	Continuance of Public Utility Service.....	4-13	
4.19	National Geodetic Survey Monuments.....	4-14	
4.20	Permits	4-14	
4.21	Additional Mitigation or Modifications	4-16	
4.22	Community Enhancements	4-16	
Green Sheet: Project Mitigation Summary			
Section 5 – Final Section 4(f) Evaluation			5-1
5.1	Introduction	5-1	
5.2	Proposed Action and Need for Project	5-3	
5.2.1	The Economy	5-3	
5.2.2	Civil and National Defense and Homeland Security	5-4	
5.2.3	Capacity and Connectivity	5-5	
5.3	Description of Resources	5-6	
5.3.1	Historic Resources	5-6	
5.3.2	Recreational Resources	5-17	
5.4	Impacts on the Section 4(f) Properties	5-19	
5.4.1	Historic Resources	5-19	
5.4.2	Recreational Resources	5-20	
5.5	Avoidance Alternatives.....	5-20	
5.5.1	Historic Properties	5-20	
5.5.2	Recreational Properties	5-24	
5.5.3	Statement of No Prudent and Feasible Alternatives	5-25	
5.6	Measures to Minimize Harm	5-25	
5.7	Coordination.....	5-26	
5.8	Section 4(f) Conclusion	5-28	
Section 6 – How Were Local, State and Federal Agencies and the Public Involved?			6-1
6.1	Coordination.....	6-1	
6.1.1	Early Coordination	6-1	
6.1.2	Cooperating Agencies	6-2	
6.1.3	Agency Meetings	6-2	
6.2	Public Workshops and Meetings	6-4	
6.2.1	U.S. Public Workshops.....	6-5	
6.2.2	U.S. Formal Public Meetings	6-6	
6.3	U.S. Local Advisory Council (LAC) and Local Agency Group (LAG)	6-9	

Table of Contents (continued)

6.4	Other Meetings and Public Involvement.....	6-10
6.4.1	MDOT Real Estate Meetings with Property Owners in the DRIC Study Area.....	6-10
6.4.2	Meetings of Legislative Committees.....	6-10
6.4.3	Other Public Involvement	6-11
6.4.4	Boat and Bus Tours.....	6-11
6.5	Coordination with Native American Groups.....	6-11
6.6	City of Detroit Meetings.....	6-12
6.7	Public Hearings, Public Comments and Responses	6-13
Section 7 – List of Preparers of FEIS		7-1
	Consultant Disclosure Statement.....	7-7
Section 8 – FEIS Distribution List.....		8-1
Section 9 – List of Acronyms.....		9-1
Appendices		
Appendix A	Conceptual-Stage Relocation Plan.....	A-1
Appendix B	Partnership Framework, Charter, and Memorandum of Cooperation.....	B-1
Appendix C	Concurrence by Federal Highway Administration of Illustrative Alternatives Analysis and Results	C-1
Appendix D	Environmental Justice Analysis Approach.....	D-1
Appendix E	Draft Memorandum of Agreement Among the Michigan Department of Transportation, the Federal Highway Administration and the Michigan State Historic Preservation Officer	E-1
Appendix F	Agency, Elected Officials and Major Stakeholders – Comments on DEIS and Responses.....	F-1
Appendix G	Summary of Geotechnical Advisory Group Activities.....	G-1
Appendix H	Local Advisory Council and Local Agency Group Members	H-1
Appendix I	Correspondence Related to Air Quality and Inclusion of the DRIC in the Regional Transportation Plan	I-1
Appendix J	Public Involvement Plan	J-1
Appendix K	Air Quality Impact Analysis Technical Report Addendum.....	K-1
Appendix L	Noise Impact Analysis Technical Report Addendum.....	L-1

Table of Contents (continued)

Technical Reports (Under Separate Cover and Listed Alphabetically). These can be viewed on the project Web site (www.partnershipborderstudy.com) or at the locations listed in the Foreword to this FEIS.

- Air Quality Impact Analysis Technical Report
- Brine Well Cavity Investigation Program Technical Report
- Community Inventory Technical Report
- Conceptual Engineering Technical Report
- Cultural Analysis – Aboveground Investigations Technical Report
- Cultural Analysis – Archaeological Investigations Technical Report
- Evaluation of Illustrative Alternatives
- Indirect and Cumulative Impact Analysis Technical Report
- Induced Demand Analysis Technical Report
- Initial Site Assessment and Preliminary Site Investigation Technical Report
- Level 1 Traffic Analysis Technical Report
- Level 2 Traffic Analysis Technical Report – Part 1: Travel Demand Model and Results
- Level 2 Traffic Analysis Technical Report – Part 2: Microsimulation Model and Results
- Noise Study Technical Report
- Wetland, Threatened and Endangered Species and Coastal Zone Management Technical Report
- **Level 3 Traffic Analysis Report – Travel Demand Model Results and Highway Capacity Analysis/Microsimulation Results of the Preferred Alternative**

List of Sidebars

What is a Practical Alternative?	1-4
What does Military/Industrial Logistics Mean?.....	1-7
What is NEXUS?	1-11
What is FAST?	1-11
What is Redundancy?	1-13
Illustrative Alternatives.....	2-3
What is Value Analysis/Value Planning?	2-36
What is a Plaza? What Occurs There?.....	2-36
What are Engineering Criteria?	2-40
What are Potential Effects?	3-1
What is a Technical Report?.....	3-1
What is a Dwelling Unit?.....	3-22
What is a Renaissance Zone?	3-24
What is an Empowerment Zone?	3-24
What is a Conceptual Stage Relocation Plan?	3-24
Title VI of the 1964 Civil Rights Act:	3-25
What does Executive Order 12898 Cover?	3-25
Low-income Populations Are:.....	3-26
What is a Brownfield?	3-40
What are Ripple Effects?	3-48
What is a Foreign Trade Zone?	3-52
What is a Travel Demand Model?	3-57
What is a Peak Hour?.....	3-59
What is Traffic Microsimulation?	3-82
What is Level of Service (LOS)?.....	3-83
What is the Highway Capacity Manual?	3-83
What is a Diamond Interchange?	3-95
What does Intermodal Mean?.....	3-100
What is the Americans with Disabilities Act (ADA) Supposed to do?	3-103
What is the Rouge River Gateway?.....	3-104
What is the West Riverfront Walkway?.....	3-104
What is Transportation Conformity?	3-111
What is a TIP?	3-111
What is NOx? Where does It Come From?	3-114
What are VOCs?	3-114
What is MOBILE6.2?	3-115
Where are the Nearest Monitors that Measure Air Pollution?.....	3-117
What is a Sensitive Receptor?.....	3-121
Which Air Toxics Coming from Vehicles are of Most Concern?.....	3-122
What are Quantitative and Qualitative Analyses?.....	3-125
What is the Clean Air Interstate Rule?.....	3-127

List of Sidebars (continued)

What is TNM2.5?	3-133
What is a Decibel?	3-134
What is a Bird Strike?	3-148
What is the National Historic Preservation Act (NHPA)?	3-151
What is the Area of Potential Effect (APE)?	3-152
What is the National Register of Historic Places (NRHP)?	3-152
What is Section 4(f)?	3-153
What are Prehistoric Archaeology and Historic Archaeology?	3-153
What is <i>Use of a Section 4(f) Property</i> ?	3-158
What is Lighting and Light Pollution?	3-180
What is an 80-degree Cutoff?	3-180
What Does Lighting Have to do with Bird Migration?	3-181
What is an Initial Site Assessment (ISA)?	3-184
What is a Preliminary Site Investigation (PSI)?	3-184
What is a LUST site?	3-185
What is a Brownfield?	3-185
What is Remediation?	3-186
What is a Transboundary Effect?	3-216
What is an Anomaly?	3-238
What is Just Compensation?	4-2
What is Fair Market Value?	4-2
What are Bituminous and Concrete Plants?	4-5
What are Soil Erosion and Sedimentation?	4-6
What is the National Pollutant Discharge Elimination System (NPDES)?	4-7
What is Groundwater?	4-8
What is a Protected Resource?	5-1
What is <i>Use of a Section 4(f) Property</i> ?	5-1
