

Dear Honorable Representative LaJoy;

March 23, 2006

Both my cousin and I have lived in Delray all of our lives and so far all eleven years we have learned to respect our neighborhood more and more.

In the past year we have been working with MDOT. What I like about them is they don't ignore you they actually listen to you. My cousin and I have went to a lot of meetings and have learned a whole lot about the DRIC study. As a resident of southwest Delray I will be one living near the new crossing. Please allow MDOT to finish this study so all my neighbors and I can feel confident that the decisions we all have made are the right decisions.

Sincerely,
