

Detroit River International Crossing Study

Induced Demand Analysis Technical Report

Table of Contents

- Summary
- Introduction
- Demographic Forecasts
- Measuring the Induced Demand of a New Border Crossing

Detroit River International Crossing Study

Noise Study Technical Report

Table of Contents

- Summary
- Introduction
- Background
- Identification of Noise Sensitive Land Uses
and Existing Noise Levels
- Noise Barrier Analysis
- Findings

Detroit River International Crossing Study

Air Quality Impact Analysis Technical Report

Table of Contents

- Summary
- Introduction
- Methodology
- Comparative Analysis of Practical Alternatives
- Mobile Source Air Toxics (MSATs)
- Attainment Status/Air Quality Conformity
- Construction Impacts
- Mitigation

Detroit River International Crossing Study

Brine Well Cavity Investigation Program Technical Report

Table of Contents

- Summary
- Introduction
- Regional Geologic Summary
- Historical Information
- The Investigation Approach
- Field Investigation
- Drilling Program
- Rock Testing
- Subsurface Conditions and Evaluations
- Very Preliminary Conclusions

Detroit River International Crossing Study

Community Inventory Technical Report

Table of Contents

- Summary
- Introduction
- History of Study Area and Key Characteristics
- Land Use Trends
- Key Study Area Population Groups and Issues

Detroit River International Crossing Study

Indirect and Cumulative Impact Analysis Technical Report

Table of Contents

- Summary
- Introduction
- Historic Trends of Region/Study Area
- Expected Future Development
- Analysis
- Conclusion

Detroit River International Crossing Study

Initial Site Assessment and Preliminary Site Investigation Technical Report

Table of Contents

- Summary
- Introduction
- Background and Site Setting
- Preliminary Site Investigation

Detroit River International Crossing Study

Level 2 Traffic Analysis Technical Report

Part 1: Travel Demand Model

Table of Contents

- Summary
- Introduction
- Summary of Model Components
- Base Year Validation
- Description of Practical Alternatives
- Forecasts
- Changes in Demographics

**Detroit River International Crossing Study
Level 2 Traffic Analysis Technical Report
Part 2: Highway Capacity Analysis and Mircrosimulation
Modeling Results**

Table of Contents

- Summary
- Introduction
- Traffic Analysis Procedures
- Traffic Analysis Results

Detroit River International Crossing Study

Wetland, Threatened and Endangered Species and Coastal Zone Management Technical Report

Table of Contents

- Summary
- Introduction
- Methodology
- Findings
- Conclusions
- References
